Vehicle Description

One of 24 re-bodied from circa 1988/9 built by Classic Sports Cars of Ringwood based on the legendary Datsun 260Z engine/chassis and designed to be a close representation of the iconic 250GTO. Ferrari were so concerned by these Ringwood cars, that they eventually forced their production to close down and had the moulds destroyed, so these, albeit replicas, are well-known cars in their own right and are highly sought-after.

This particular car has been recently completely refurbished to a very high standard and boasts many correct Ferrari features and is both stunningly beautiful and superb to drive .

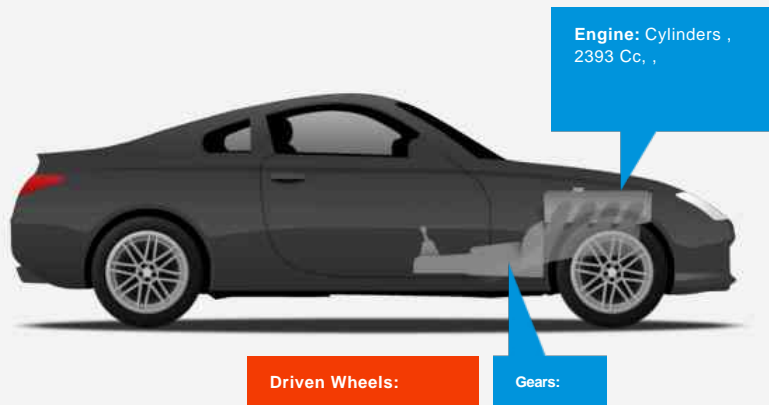

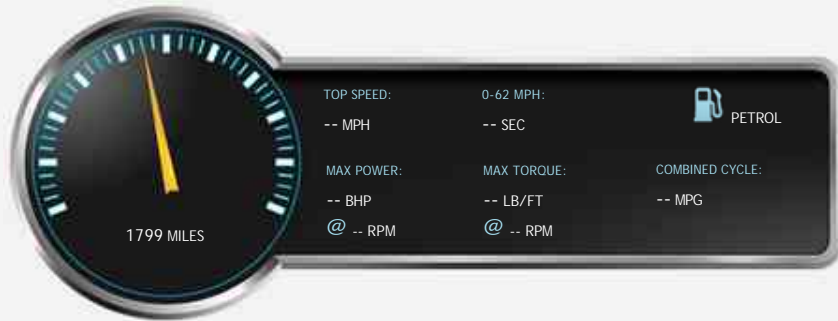

This is as close as most of us mere mortals will come to owning the real thing....so why not live the dream???
