Vehicle Description

First registered May 1973 (L Reg) this is a UK supplied and kept Right Hand Drive car with, we are advised by the vendor, an intact ownership record from registration to date.

This very good looking example has clearly been well cared for throughout its life and it is possible (although not warranted) that the recorded mileage at 37,400 miles is genuine. From 1986 to 2005 it was held as part of a major collection of cars in the North West.

Presented in Signal Red with Black Leather with Chrome Wire Wheels; this car has just the right patina of age. It drives very well indeed, with the engine pulling nicely through all the gears which change up and down just as intended.
