Vehicle Description

ONLY 2015 Miles. , A very rare road going version of the Ginetta G20 single make race series car. The car weighs around 660 Kg and is powered by a 2.0 litre Ford Zetec engine with rear wheel drive and 5 speed gearbox, independent fully adjustable wishbone suspension and disc brakes all round. A very responsive car with superb performance and stylish body. There are no doors, windows or roof to worry about and certainly no radio, the entertainment is provided by the driving experience.

This is a superb track-day car which can be driven to the circuit, enjoyed to the full and driven home again!!!

One for the minimalist enthusiast, a great alternative to a Caterham and much rarer!!
