- > Leather Upholstery

### Vehicle Description

*A real benchmark in luxury 4x4's!*

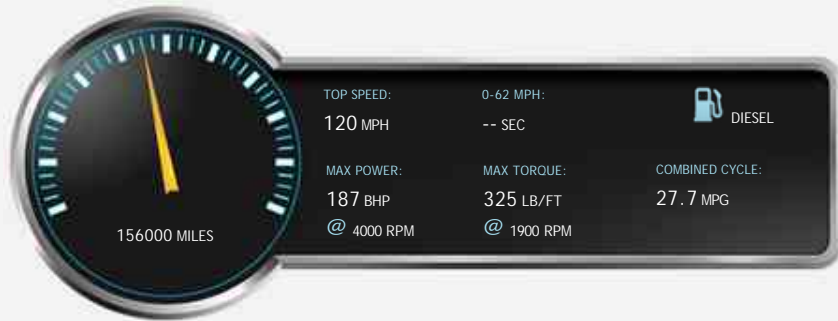

*A remarkable example of the iconic Range Rover Sport, finished in a widely sought after colour combination of metallic grey with full black leather interior. Has huge specification including air conditioning, alloy wheels, CD player, cruise control, electric windows, electrically adjustable & heated front seats, heated rear seats, power steering, rear parking sensors, remote central locking, satellite navigation, tow bar and traction control. In incredible condition all round when taking its age and mileage into account, and has been maintained to a very high standard with an outstanding full service history including timing belt change and a recent service costing over £2200. Truly does look, sound and drive like its covered a fraction of its actual miles. A stately and really well presented luxury 4x4, which*
