Vehicle Description

This is a stunning looking car in Monza Red with low mileage which is borne out by the excellent condition of the black leather interior. The car comes with M400 performance as it has been upgraded to 420bhp by Noble Motorsport. This however is the only modification to the car's specification which remains otherwise original and includes air conditioning, CD radio, engine start button, full leather race harness and a full roll cage.

Th car has a good service history (last two with ourselves) and is fitted with Bridgestone tyres which are at 7mm on the front and 6mm on the rear.

It will come with 12 months MOT and 6 months warranty.

If you are considering buying a Noble, this particular 3R represents a great investment.
