Vehicle Description

THE BIKE SPECIALISTS,  
TRADING STANDARD AWARD WINNERS.

We are proud to add this latest motorcycle to our current selection of investment pieces. This 2017 Kawasaki Supercharged H2 Carbon variant produces a maximum 210 horsepower and is one of the most powerful and fastest street legal production motorcycles on the market.

Our example in the Black Sparkle paint scheme is one of the rare 2017 models of which just 120 were produced. Our example is number 49 and is also unique by virtue of the fact the bike has never been used and has covered just the 2 pdi miles. Supplied with Akrapovic exhaust and the Ohlins suspension upgrade.
