Vehicle Description

This superb XJS Celebration Convertible was initially registered in Florida and remained there until it was acquired and imported by the most recent keeper in 2014 and then registered in the Isle of Man.

In the last owner's care this car has been used mainly for continental touring hence the acquisition of a Left Hand Drive variant. This example has been very well looked after with a body of paper work supporting this. In the main this is from Jaguar Main Dealers in Florida and France

With the benefit of the desirable AJ16 engine, the XJS Celebration has become a sought after variant of the marque. We have not as yet applied for a V5 for the UK mainland as we are conscious that the new owner may wish her away to sunnier climes and we can most certainly imagine this splendid car gracing
