*Challenge Stradale was up to 110kg lighter than the standard 360 Modena if all the lightweight options - radio delete, plexiglass door windows, and Alcantara fabric seats - were specified. As much as 74kg was taken from the car by lightening the bumpers, stripping the interior of its sound deadening, changing to carbon fibre door mirrors, and making the optional Modena carbon fibre seats standard. The engine and transmission weight was slimmed down 11kg through the use of a smaller, lighter weight sports exhaust*
