### Vehicle Features

Not Specified

### Vehicle Description

*This superb Recaro Edition GT-R, previously supplied by AT Performance has just arrived back with us and is now available to own.*

*The already breathtaking pace of the GT-R has been upgraded by Auto Torque to achieve over 670 bhp with their AT650 / Stage 4.25 package with accompanying graph print out. This package includes a Full Milltek Exhaust System with downpipes & Y-pipe, ASNU Hi-Flow 1050cc Injectors, Hi Flow Air Intakes and an EcuTek Version 7 Remap. All carried out at 34,140 miles in September 2018.*

*Registered on the 11th March 2011 by Nissan Bournemouth. The vital 1200 mile optimisation service was completed at 1,306 miles and recorded in the service book. The GT-R's servicing was carried out by Nissan NHPCs for the first 36 months before it was subsequently maintained by Ricky Elder of RE Performance, a Supercar service centre. Most recently the car was serviced by R35 Specialist Auto Torque shortly before the AT650 Conversion.*

A T Performance Cars, 9, UBF Industrial Park, Bicester Road, Westcott, Aylesbury, Buckinghamshire, HP18 0JX
