Vehicle Description

Range Rover Autobiography 5.0 Supercharged, on 82,000 any in very tidy condition. We bought this car for stock recently but it has an engine rattle possibly caused by faulty timing tensioners which is causing a limp mode and misfiring. These engines are known for suffering this problem, but we do not have the facilities to fix it, so are selling this as spares/repairs for another person/garage to rectify. The retail guide on this car is £18,700 so we are selling for £14,000 to allow for engine work time and parts. No offers please, as it is a bargain at this price.

It goes without saying that due to the faults no warranty is implied or given, and the vehicle cannot be driven away.

Please call us on 01242 898 986 to arrange a viewing.
