- > Power Assisted Steering

Vehicle Description

Well, all you Saab lovers out there, here we have a real part exchange bargain. This Saab 9-3 Vector Convertible, definitely an interesting car, possibly a collectors and maybe even a future classic?? This one is in pretty good all round condition, all the panels are straight and bright, the wheels haven't been smashed up against every kerb in the country and the interior seems to have stood the test of time admirably too. It starts on the button and drives nicely with the hood and everything else (apart from the nearside back window) all working how it all should. It looks and feels like it has been really well looked after, with FULL HISTORY - 12 stamps in the book and invoices where the stamps are not there. Nice long MOT until 30th October with NO ADVISORIES surely makes this Saab the one to have ? CALL NOW with any questions and to book your viewing and test drive.
